Bronzework Studio Precision Square Liners, 1/4 inch, Living Brass, Hepburn finish, with white marble (70 inch liners cut on job site to fit pattern)

## Precision™ Square Liners

The finest metal trim

Living Brass | Stainless Steel | Matte Black

Up to 98 inches long

A luxurious room is incomplete without luxurious trim. Solid metal. Finished by hand. Carefully curated to suit refined architectural styles.

Crafted in the United States by tile artists who have been inventing timeless ways to enhance homes for thirty years.

## Precision Square Liners

### Sizes

 1/4 inch: 1/4 × 1/4 × 24 inches  
1/4 × 1/4 × 70 inches  
1/4 × 1/4 × 98 inches

 3/8 inch: 3/8 × 3/8 × 24 inches  
3/8 × 3/8 × 70 inches  
3/8 × 3/8 × 98 inches

### Materials

Living Brass | Stainless Steel | Matte Black

### Finishes

Our Living Brass and Stainless Steel liners are finished by hand in small batches in our Chicago studio.

**Hepburn™ finish:** an extremely fine satin luster.

**Empire™ finish:** the high luster of a polished antique.

Hepburn and Empire liners are finished on one side. Available with two adjacent sides finished, by special order.

Since liners are finished by hand, slight variations in luster and minor surface markings are to be expected.

**Matte Black:** Aluminum with flat black powder coat. Finished on four sides. No significant variations in color or surface markings. Only available in 24 or 70 inch lengths.

### Patina

**Living Brass:** Color naturally becomes richer and darker over time. Optional: apply a thin layer of paste wax 1-2 times a year to retard patina process.

**Stainless Steel:** Does not patina.

**Matte Black:** Does not patina.

### Installation

Cut to length with a hacksaw lubricated with WD-40.

In most cases, liners can be installed using the same setting compound as the adjacent field material. Except: *avoid mastic, epoxy thinset, and epoxy grout. Epoxy cannot be removed without risk of damaging the liner's surface.*

Use unsanded grout when possible. Keep grout lines as narrow as practical, preferably 1/16 inch.

Sealing is not necessary.

For full details, see our Installation guide (on our website and shipped with every order).

### Cleaning

Clean liners with a soft, damp cloth or paper towel and mild dish soap. Clean up food splashes promptly to avoid altering the natural patina. Dry liners thoroughly.

If more vigorous cleaning is required, use a 5:1 water/white vinegar solution. Avoid abrasives and highly acidic cleaners.

Usage	Interior wall	Interior floor	Backsplash/ countertop	Shower	Exterior wall	Exterior floor	Pool/Fountain
Living Brass	✓	✓	✓	✓①	✓②	✓②	✓③
Stainless Steel	✓	✓	✓	✓	✓	✓	✓
Matte Black	✓	✓④	✓	✓	✗	✗	✗

① Patina will vary depending on how much moisture is present. For pristine appearance, dry surface with soft cloth after shower.

② Patina will vary depending on climate. In most cases, gray-green verdigris patina will develop gradually and darken over time.

③ A dark patina will develop over time. Living Brass can be lacquered to prevent the patina from developing.

④ Matte Black liners may be used on light traffic floors, such as residential bathrooms or where shoes are not typically worn.
